PLUS

Essential, bold lines **define** this Wearableitalia bracelet. The Plus model stands out for its simplicity and the decisiveness of its design, **as well as** all the pieces in this line created by Roberto Ferlito. Classical shapes and cutting edge spirit: Plus is the characteristic mark that makes every look special thanks to its distinctive, made-in-Italy style, the unique and exclusive soul of Wearableitalia's smart jewels.

- Inside 45x55mm

CONTRARIÉ

Two differences in a mutual embrace and merged together: this is the essence of Contrarié, a Wearableitalia jewel designed by Roberto Ferlito. Two bands form the bracelet, encircling the wearer's wrist in a precious embrace: asymmetric but complementary, they latch with a hidden release, a further unmistakable mark of the Italian craftsmanship featured by Wearableitalia products, where hi-tech and made-in-Italy join in an happily denied paradox.

Features:
